

MICRO ULTRIX™

The easiest way EVER to fly!

- Requires absolutely no assembly!
- Excellent for small-field flying. Turns neighborhood parks and playgrounds into impromptu flying fields.
- Twin motors provide power for efficient flight and easy steering.
- Included NiMH battery charges in just minutes and provides long flight times.
- Handy field charger requires just 6 "C" alkaline batteries!

~~ASSEMBLY~~

The **Micro Ultrix** includes everything here!

- A 2-channel radio system — completely installed.
- Two micro motors
- Rechargeable NiMH battery
- Field charger
- Two propellers, plus two spares

Light, compact flight control! Control flight speed with the left stick, steering with the right.

Quick, easy recharging. The Charge Status light flashes red while the on-board battery charges, but glows green when it's done. Requires just 6 "C" cell batteries!

SPECIFICATIONS...priced to fly at \$38.80
