Park Pilot

FLYZONE™

**Fly-
anywhere
R/C fun –
ready to
launch in
just
minutes!**

Low cost, fast assembly, easy flight, and a compact, take-it-anywhere size: Four reasons why the Park Pilot RTF is an ideal first R/C plane, and a great way for anyone to experience park flying fun. You're only minutes away from flight-ready the instant you open the box. Radio, motor and battery are included, and all electronics come factory-installed. Launch it by hand...enjoy the slow, stable, maneuverable flight...and pick up new skills that can take you to higher levels of R/C aviation!

Complete Set Includes:

- 3-Channel Radio Control System already installed
- Powerful, Factory Installed Electric Motor
- Rechargeable NiMH Battery for long flight times
- 12V DC Fast Field Charger
- Electronic Speed Control with Auto Cut-Off
- Two Propellers
- Screwdriver

Note: Also available as an ARF, requiring 3-4 channel radio with 2 micro servos

Single-Stick Radio Made by Futaba®

Controls on the included 3-channel radio transmitter are positioned to make piloting feel easy and natural.

A single stick governs rudder and
